Effective Prayer Works

“In times of despair, get desperate in prayer!” That statement has stayed in my spirit for over ten years since first hearing it in a message by Pastor David Cook at Destiny Church in San Antonio. Oh, how I’ve bowed on my knees crying out for healing, – “God we need you in America – right now!”

I urge every Christian to pray at least 10 minutes a day for America. Just ten minutes of your time for our country that desperately needs a turnaround! If you need a passage to reference, turn to 2 Chronicles 7:14 and pray fervently with an urgent cry, “If my people, who are called by my name, will humble themselves and pray and seek my face and turn from their wicked ways, then I will hear from heaven, and I will forgive their sin and will heal their land.”

Like most of you, I want God to change America back to the principles on which it was founded. I want prayer back in schools, the ten commandments back on the walls, “In God We Trust” on our money and righteous men and women in Congress! So let FREEDOM ring by getting desperate in prayer for our country and start seeing changes of a praying nation that is “One Nation Under God!”

God Bless America!

### **Want a Website?**

My web designer, Terry Blaser, is offering a tremendous special for my friends. He teaches people how to live healthier while making the process enjoyable. This training is done free and is soon to be offered on-line as well. He intends to keep the training free so he raises the funds from other sources. This is where you can benefit. For a donation of \$100 or more, for the healthy living initiative, he will:

- Build you a web site like mine on a you-price-it basis (use it for 3 months and then pay what you feel it is worth or what you are able to pay)
- Provide 6 months free hosting for your new web site (1 year, if donation is \$180 or more), and

- Build and install a free mini-web-site for your Facebook fan page (this will be offered to my first 5 referrals)

If you are interested in a new web site or would like to support the healthy living initiative, go to <http://terryblaser.com/web-services/> for current information and to contact Terry.

Note: I took him up on "you-price-it" and I have been extremely pleased and highly recommend him - see my [web site](#) to see why.
